

# Lonely Cactus

Dami Im

Late again to dinner  
Gave you 3 weeks notice  
As per your requirement

But you're counting down the minutes  
Till your next appointment  
Stuck in awkward silence

Underneath what you do  
There's nothing but blue  
And pieces that don't have a place

Everyone sees clearly  
They're scared to hurt your feelings  
Now let me tell it to your face

You're a lonely cactus  
All on your own  
You're on the attack but  
You sit by the phone  
A lonely cactus  
In the desert sun  
But you're scared if you get too close

You wonder why nobody tries anymore  
You bleed us dry still want it all  
There's more to life than chasing you in circles  
Do you want to run at all

Underneath what you do  
There's nothing but blue  
And pieces that don't have a place  
I'm so tired of hearing  
Leave your name and number  
Now let me tell it to your face

You're a lonely cactus  
All on your own  
You're on the attack but  
You sit by the phone  
A lonely cactus  
In the desert sun  
But you're scared if you get too close  
You'll hurt someone  
You'll hurt someone

I'll weather the storm  
And I'll take on these thorns  
Cause I miss you  
I'll break through the armour you've worn for so long  
Cos you miss me too

You're a lonely cactus  
All on your own  
You're on the attack but  
You sit by the phone  
A lonely cactus

In the desert sun  
And you're scared of getting too close

You're a lonely cactus  
All on your own  
You're on the attack but  
You sit by the phone  
A lonely cactus  
In the desert sun  
You're scared if you get too close  
You'll hurt someone  
You'll hurt someone  
You're so scared  
That you'll hurt someone
