

# Without You

Dami Im

Meet me at the place where we first met,  
I remember every word you said  
When you promised me you were coming home  
Starring at the ceiling all alone  
Thinking I could hear you on the phone,  
But all that's left is dead and gone!

I bend until you broke me  
Back and forth so slowly  
There's only so much I could take

Gotta get used to life without you, without you  
Nothing's gonna save me like I wanted to, I wanted to  
All that I needed wasn't a reason, wasn't enough to make you stay  
Gotta get used to life without you!

We were so in love when we first met  
Threw away the book to right at the end  
I watch the ashes turned to dust  
Piece by piece you clothe me, then strip me bare and sold me  
There's only so much I could take, ooh ooh

Gotta get used to life without you, without you  
Nothing's gonna save me like I wanted to, I wanted to  
All that I needed wasn't a reason, wasn't enough to make you stay  
Gotta get used to life without you!

You left me here and I was frozen,  
You cut me when my wounds were open,  
Tryina find the truth in your lies!  
Oooh, you left me I was barely breathing  
You cut me just to see me bleeding  
And never got our beautiful goodbye!

Gotta get used to life without you  
Nothing's gonna save me like I wanted to!

Gotta get used to life without you, without you  
Nothing's gonna save me like I wanted to, I wanted to  
All that I needed wasn't a reason, wasn't enough to make you stay  
Gotta get used to life without you!  
Oooh, gotta get used to life without you!
