

# The First Time

Damiano David

I thought my heart had felt it all  
I swam for miles across the ocean  
Never met the shore  
My eyes were closed  
My highs were lows  
Just getting drunk on pills and potions  
Craving something more

Traveled the world, but it got me nowhere  
Nothing could ever compare

A kiss, a touch  
A song that made me cry  
And all the drugs I've done  
They never got me higher  
Than the first time we met  
There's nothing like the first time we met  
I crashed my car  
Oh baby I was flying  
And I talked to God  
He couldn't get me higher  
Than the first time we met  
There's nothing like the first time  
The first time we met

That night, the stars aligned  
Heaven dropped a line  
Before you, I was just a flare in the sky  
A kid too afraid to go to play in the light  
A colorless painter  
A man with no sight  
Before you, I was nothing  
Was nothing  
Had nothing  
I only had

A kiss, a touch  
A song that made me cry  
And all the drugs I've done  
They never got me higher  
Than the first time we met  
There's nothing like the first time we met  
I crashed my car  
Oh baby I was flying  
And I talked to God  
He couldn't get me higher  
Than the first time we met  
There's nothing like the first time  
The first time we met

You set the room on fire  
You take the angels higher  
I heard a thousand choirs  
Oh baby you ain't seen nothing yet

Traveled the world, it got me nowhere  
Nothing could ever compare

A kiss, a touch  
A song that made me cry  
Drugs I've done  
They never got me higher  
Than the first time we met  
There's nothing like the first time we met  
And when I crashed my car  
Oh baby I was flying  
And I talked to God  
He couldn't get me higher  
Than the first time we met  
There's nothing like the first time  
The first time we met

The first time we met  
The first time we met  
There's nothing like the first time  
The first time we met
