

Big Big Love

Damien Dempsey

Just last year I was your king
How we made them summers sing
You kept me safe and warm through my storms
I knew you could never be
All the things I wished for me
Don't love the roving man with no plans
Big big love, massive love, I wish to you in all you do
And you will never leave my heart, you're with me
Even though we are apart

Once on a happy time we could stop each other from crying
Even though we are through, part of me will still love you
So long, Slán, I will be there if you ever need me
I'm glad I met your spirit on the way
I must say how we burnt and we shone
Sang life's sweet song
Thank you for every laugh and tender moment, Slán
