

## And Now That I'm In Your Shadow

Damien Jurado

I would rather hide behind you  
Or stand in your eclipse  
The sun, it does not move me like it used to  
And neither do you

And Greenland I am with you  
I was once unwanted  
In the front seats all with strangers  
I too was the Earth's ceiling  
I lost all feeling

And now I'm in your shadow  
I'm motionless  
I am black

I'll be a crash landing who can change the landscape talking  
And when I begin to stutter the land will be shaking  
And God will be clapping

And now I'm in your shadow  
I'm motionless  
I am black

And now I'm in your shadow  
I'm motionless  
And I am black
