

# Day Of The Robot

Damien Jurado

I tried to ignore  
My inner voice appalled  
I silenced him with laughter

He dies in this scene  
We have to get it right  
Step closer to the window

Now fall back  
We've got you

If you're unwilling  
We have your replacement

Miss Parker please!  
You're standing in my light!  
Can you read these cue cards?!

We're making a change  
You're walking out of frame!  
Step closer to the window

Now exit  
They'll love you  
Running in the rainfall  
Your arms out  
And scene

Look into the camera  
Now hold still  
We've got you

One more time with anger, and sadness  
I believe you

That will be all
