

When I look back upon my time
See the snapshots of my life
You will not be surprised
To see your name across my smile
See your name across my smile

And I will remember you
I will remember you
I will remember you
The way you are right now
The way you are right now

When I first came into view
I was older than you knew
Always going out of tune
Anytime you'd leave the room
Anytime you'd leave the room

And I will remember you
I will remember you
I will remember you
The way you are right now
The way you are right now

When I look back upon my time
See the snapshots of my life
You will not be surprised
To see your name across my smile
See your name across my smile

And I will remember you
I will remember you
I will remember you
The way you are right now
The way you are right now
