Make Up Your Mind

Damien Jurado

Sat on the couch for hours talking
About the current situation
Today is the day that we part
Today is the day we fall apart

If you want to talk about it
Darling you know where I'll be

Sat on the porch for hours talking
About the current situation
Today is the day that we part
Today is the day we fall apart

If you want to talk about it
Darling you know where I'll be
If you want to talk about it
Honey you know where I'll be

Make up your mind
