

Metallic Cloud

Damien Jurado

Here's a temporary fix,
In case you don't come down.
Metallic cloud,
Voice in the crowd.

Cheer yourself up,
There are three to be seen,
Geodesic eyes,
And your life on rewind.
Your name was on fire,
So we pulled the case.
How does it taste?
With your mouth from your face.

Here's a temporary earth,
In case you don't get out.
Melodic rain,
Your own choke chain.

Drove yourself here,
So you might as well stay.
You want to be amazed,
And see the sky on delay.
Keep a close eye,
For the ship in the sky.
Resurrection signs,
Do the numbers align?

Zodiac pain,
And the birds flew away,
Colours don't change,
When your life gets strange.
