

# Nothing Is the News

Damien Jurado

Turn it around you found that they were all wrong  
All you had heard, the ghosts of the words in a song  
Nothing new have when all that you want is gone  
I will never know, I will never know, I will never know  
I will never know, I will never know, I will never know

You can't go back now as the door has been closed  
Standing outside just passing time 'til we die  
There's nowhere to live and all that's been living is gone  
I will never know, I will never know, I will never know  
I will never know, I will never know, I will never know

Turn it around you found that they were all wrong  
All you had heard were ghosts of the words in a song  
Nothing you had and all that you want is gone  
I will never know, I will never know, I will never know  
I will never know, I will never know, I will never know  
I will never know, I will never know, I will never know  
I will never know, I will never know, I will never know  
I will never know, I will never know, I will never know  
I will never know, I will never know, I will never know  
I will never know, I will never know, I will never know
