

## Oh Death Art with Me

Damien Jurado

I was courted by Death today  
In an attempt to take my life  
He showed up with a nice bouquet  
Of flowers for my grave

He said, "Come with me now  
And we can take my horse and carriage"  
He led me six feet underground  
Where the worms will eat my skin

"You will not need your body, son  
For, the devil, he just wants your soul  
He has had his eyes on you  
Since the day you stepped in this world"
