

## Paxil

Damien Jurado

I need the to come today  
Because the medication kicked in  
Beneath this big exterior  
Is a heart that doesn't work

Leave me alone 'cause I'm  
There's no telling what will go down

My head is on fire  
My hands are on fire  
I am on fire

My head is on fire  
My hands are on fire  
I am on fire
