

Where You Want Me to Be

Damien Jurado

Now you've got me where you want me to be
You can always tell me you love me, say it quietly
If they knew how I felt about you
You would no longer see me
Now you've got me where you want me to be

In the day I know of a place to escape
On the south end of town
We can be as tall as the mountains
We dream when the sun goes down
Now you've got me where you want me to be

When I turn to you and say
This is how I want my day
Spending every moment at your side
You can always tell me you love me, but say it quietly
Now you've got me where you want me to be
