

Goodnight

Damien Leith

All I got to show for everything
Is in my hands, upon
Here on the table
Memories are finally going
Everything was wild and close
And I'm not able
Looking down a road to no where
Feeling like I'm all alone
And time has frozen
And no direction anymore
Something's got to happen soon
But I know that's not the case
Though I love you
I think it's time
That I say goodnight
I will always long your side
You will always be my guide in life
To lead me through these stormy nights
And I'll walk on
Trying hard to say so strong
Knowing you'll always be close by
For all of time
Simple things can take you high
Take you to the sky
Until you crash back on the feeling
The emptiness can fill it up
Never quite enough
And are harder on your shoulders
Chasing down a road to no where

Feeling like I'm all alone
Time has frozen on no reaction anymore
Something's got to happen soon
But I know that's not the case
Though I love you
I think it's time
That I say goodnight
I will always long your side
You will always be my guide in life
To lead me through these stormy nights
And I'll walk on
Trying hard to say so strong
Knowing you'll always be close by
And if this life gets cold
And I'm frozen right down to the bone
Searching answers I'll never know
And all directions keep leading me back home
But I go
So I say goodnight
I will always on your side
You will always be my guide in life
And I'll walk on
Trying hard to say so strong
Knowing you'll always be close by
For all of time
For all of time
Goodnight
