

See You Again

Damien Leith

Trying to think as driving
I thought that in my heart
I'd remember feeling this right back at the start
I kept believing there was room for everything
But there was time for love and time for sense like now
I read the papers, see the worlds been torn apart
I joined the circus, walked the line but kept my heart remember
ing
You and me, we were young and we were free
When there was time for love, more time for sense
Like now
We might meet on a Monday
Under the starz or in the pouring rain
Cause i know i'll see you
Again
So many days, so many years have been and gone
The distant voices of the past keep moving on

And while we
Watch our lives changing right before our eyes
As there's still time for love, a time for sense like now
We might meet on a Monday
Under the Starz or in the pouring rain
Cause i know i'll see you
I know ill see you
I know ill see you
Again
(Wooooahhh woooahhhh)
AGAIN
See you again
(Wooooahhh woaahh)
When will i see you again
Wooooooooooooooooooooooooooooah
We might meet on a Monday
Under the starz in the pouring rain
Cause i know i'll see you
I kno ill see you
I know ill see you
Again....
Again.....
Woooahh..... (continuous)
