Flames burn over thousands of miles
Fire Mountain like a running tiger
Fire burns journeymen down
Flames stop the path to the west
Not even a single blade of grass can grow
There is neither spring nor autumn
Even if you are made of metal head and iron body
You will be melted down
How fantastic is the mythical time
Magic is born of heaven and earth
This palm leaf is made from the essence of Yin
This palm leaf's name is Iron Fan
One wave of Iron Fan can put out fire
The second wave will create a light wind
The third will bring the rain
Everything in the universe will smile
