Mean Monsoon

Dan Auerbach

The summer sun has got me crazy Playing tricks with my poor mind You said you had another man And I said I guess I didn't mind

What's he got that I ain't got
Besides stability
Can he drive all night and never stop
Well I guess you'll have to wait and see

I heard a voice, call to me Saying some day you're gonna be free

Put a dollar in the jukebox
But don't you play our favorite tune'
Cause seeing you dance to that
Is only gonna bring me to ruin

Someday sunny sounds will soothe me But it won't happen soon' Cause the cloud you left hanging over Is raining like a mean monsoon

I heard a voice, call to me Saying some day you're gonna be free
