

# When I Left The Room

Dan Auerbach

She used to make me feel  
Like I could do no wrong  
I sang a happy tune  
Her name was in my song

But now her eyes foretell  
Only impending doom  
And I just wanna know  
What she said when I left the room

We had a plan  
That if we sacked away  
We'd go and buy that place  
Down in Santa Fe

Then some kids  
Oh, they would follow soon  
But I just gotta know  
What she said when I left the room

Paranoia, heart destroyer  
I feel like I could die  
My mind is gone, 'cause you moved on  
Still I don't know why

Voices in my head  
Ring like a sonic boom  
Oh I gotta know  
What she said when I left the room

She left a year ago  
With my record collection  
Now all I have  
Is my own reflection

I reckon, if she moved  
Away to the moon  
I'd still wanna know  
What she said when I left the room
