Jesus on-line

Well I woke up in the morning with the day staring straight at my face didn't take it as no warning that the world's become so boring I slip back into cyberspace

This dimension's more appealing and I get this sense of feeling of desire to communicate an invention so revealing I feel like I'm stealing that I have to reciprocate

But I'm fine, fine, fine, fine let it go I'm your jesus online for show if you wait here only for me I'll be your jesus online for free

There's people that are dealing and there's people that are streaming all looking for the perfect life with the help of endless dreaming I'm searching for the meaning I know it's gonna be all-night

But I'm fine, fine, fine, fine let it go I'm your jesus online for show if you wait here only for me I'll be your jesus online for free

You can call us on the hot line any day any time any place 24 7 just one click to heaven I'm there for the human race

But I'm fine, fine, fine, fine let it go I'm your jesus online for show if you wait here only for me I'll be your jesus online for free I'll be your jesus online you'll see
