

City of Models

Dan Bern

Even the little girls have caught the disease
Even the little girls bring grown men to their knees
Walkin' down the street you're like a mannequin
Leafin' through the pages of Cosmopolitan

In the city of models
Strip shows and one night stands
City of models
City of perfect tans

You're invisible
So it's okay to stare
Impossibly high asses
Float nine feet in the air
Every step is hot
The sand is neon blue
Wish you were here
So you could be beautiful too

In the city of models
City of one night stands
City of models
City of perfect tans

It's all right
Everybody and their brother tonight
Gonna be lookin' at each other
Look at each other

Into skirts and pants
The long, long legs are poured
Inside of halter tops
The big, soft things are stored
Someone's sleeping
By the sidewalk grocery store
Get me out of here
I can't take anymore

Of the city of models
Strip shows and one night stands
City of models
City of perfect tans
City of models
Strip shows and one night stands
City of models
City of perfect tans
