

## Colors

Dan Bern

We're listening to Nine Inch Nails in my car  
I wonder when they'll find the body  
7-Eleven's got so many bottles of juice  
I love the colors

Back at the farm  
We never got to sleep in the same room  
I hated Uncle Max  
I hope he isn't mad at me  
Look out the window  
See the colors  
I love the colors  
Colors  
I love the colors

I might never sleep again  
I might never dream again  
But that's all right  
Cause there's so many colors  
I love green and red  
Colors  
I'll get you some blues  
Colors  
I love the colors

Someday I'd like to be on TV  
Dead in your lap beside a gun  
And a copy of Poison's Native Tongue  
And some flowers of many different colors  
I love the colors  
Colors  
I love the colors

We're listening to Nine Inch Nails in my car  
I wonder when they'll find the body
