

## Crow

Dan Bern

All these questions start to stick to me like cancer  
You talk and talk but I don't think I gotta answer  
If that's what's meant by confirmation  
I don't even want the nomination  
Piss on it, piss on it  
Throw it in the trash and kiss it

I will not eat crow for you or anyone else  
I will not, I will patently not  
I will not eat crow for you or anyone else  
I will not, I will patently not  
Maybe someone else will crawl for you  
Dress like a Barbie Doll for you  
There's things I'm willing to chew on  
But your crow is not one of them

I spent the last ten years trying to make your  
secretary  
Happy with my style  
And now that I've seen your trophies  
Excuse me if I laugh a while  
If that's the reward for suffering  
Keep the stuff you're offering  
Piss on it, piss on it  
Throw it in the trash and kiss it

I will not eat crow for you or anyone else  
I will not, I will patently not  
I will not eat crow for you or anyone else  
I will not, I will patently not  
Maybe someone else will be your rug  
Jump in the six foot hole you dug  
There's things I'm willing to chew on  
But your crow is not one of them

Take your turn, take your place  
Take a walk out on my face  
Try again, you can try to dance  
But you'll never get the chance

'Cause I will not eat crow for you or anyone else  
I will not, I will patently not  
I will not eat crow for you or anyone else  
I will not, I will patently not  
Maybe someone else will hurt for you  
Squirt their blood in the dirt for you  
There's things I'm willing to chew on  
But your crow is not one of them
