

Remember Me

Dan Bern

If I's a bee I'd have to sting you with my stinger
And then your arm would swell and hurt for days
If I's a bell I'd ring you all day with my ringer
Until you'd open up and see my face

I'm not asking
For very much
Remember me
Remember me

If I's a bird I'd make a nest in your hair
And come home to your head every night
If you were blind I'd play guitar softly beside you
The melody would be your candlelight

I'm not asking
For very much
Remember me
Remember me

Remember me when you turn your lights
Way down low
Remember me when you close your eyes
On your pillow

If I's a cloud I'd hover over you and rain
And follow you around, block out the sun
If I's a tree I'd shake whenever you walk under
And cover you with leaves til I had none

I'm not asking
For very much
Remember me
Remember me
