

## Sweetness

Dan Bern

I thought you came here to dance  
But it seems you had other plans  
What's there to talk about  
What's there to figure out  
Sometimes I feel like an experiment

Tell me where has the sweetness gone  
Where is the loving song Where oh where in the world

Can't you just spin while I play  
Must you come up with a hundred and ten reasons why we're  
alive today  
I don't mind if you probe, babe  
Start with my earlobe, babe  
And then start whispering to me

Tell me where has the sweetness gone  
Where is the loving song  
Where oh where in the world

The only reason you used to need  
To be around me was me

Tell me where has the sweetness gone  
Where is the loving song  
Where oh where in the world
