

Blow

Dan Black

I been so long, suffering
Out for so long, struggling
Sitting in the corner, vanishing until you walked in
I been cling film, Ritalin
X plus Y minus everything
Sitting in the dark, vanishing until you walked in

You see that I'm bogged under the skin
All my troubles rose like zombies closing in

You blow it all away, away
Every day
You blow it all away, away
Every day

I been so long, suffering
Stripped light, lip-white mannequin
Sitting in the corner, vanishing until you walked in
I been shut in, safety-penned
Regular fries and my triptolin
Sitting in the dark, vanishing until you walked in

You see that I'm bogged under the skin
All my troubles rose like zombies closing in

You blow it all away, away
Every day
You blow it all away, away
Every day
Hey

I been so long, suffering
Out for so long, struggling
Sitting in the corner, vanishing until you walked in
I been cling film, Ritalin
X plus Y minus everything
Sitting in the dark, vanishing until

You blow it all away, away
Every day
You blow it all away, away
Every day
Hey

Oh-oh-oh-oh
Oh-oh-oh-oh
Oh-oh-oh-oh-oh
