

A fast sun, a blue sky
It's like sugar and you learn to side
You're so sly, you're so shy
Baby you got sharks swimming round inside
I see your hunger in your eyes
A yawning you can't disguise
Will close them quick, and kiss your buzz goodbye

[Chorus]

Yooouuu, is special
Just rip off all the skin, and dive in
Just rip off all the skin, and dive in

You're a blur, you're a smile
But inside it's crocodiles
Old ones, all lies
White sugar in your laundry sky
I see your hunger in your eyes
A yawning you can't disguise
Will close them quick, and kiss your buzz goodbye

[Chorus]

Yooouuu, is special
Just rip off all the skin, and dive in
Just rip off all the skin, and dive in

I see your hunger in your eyes
A yawning you can't disguise
Will close them quick, and kiss your buzz goodbye

[Chorus]

Yooouuu, is special
Just rip off all the skin, and dive in
Just rip off all the skin, and dive in.
