Space Invaders

Dan Black

Headin' home
Head on fire
Mixed up
So tired

Can't see
Maybe
This is somethin' wrong with me
Can't see
Maybe
This is somethin' wrong with me

I gave you everything I had
Would've found you anything you needed

Just go, I know we won't work this out
Just go, I know we won't work this out
Those eyes inside, they won't set me free
Just go, I know we won't work this out

Headin' home
Head on fire
Mixed up
So tired

Can't see
Maybe
This is somethin' wrong with me
Can't see
Maybe
This is somethin' wrong with me

I gave you everything I had
Would've found you anything you needed

Just go, I know we won't work this out
Just go, I know we won't work this out
Those eyes inside, they won't set me free
Just go, I know we won't work this out

Just go, I know we won't work this out
Just go, I know we won't work this out
Those eyes inside, they won't set me free
Just go, I know we won't work this out
