

Ur the 1

Dan Black

Up in the woods, streetlights in your hair
You threw down your bike, and drew a sign in the air
You looked down onto the town and you said
Fuck them all, hey hey hey hey

You're the one
You're the one
You're the one, you're the one, you're the one
You're the one
You're the one
You're the one, you're the one, you're the one
Oh-oh fade, oh-oh-oh oh-oh-oh fade

Up in the woods, all you had was honeycomb
You lit up your face with the light of your mobile phone
You looked down onto the town and you said
Fuck them all, hey hey hey hey

You're the one
You're the one
You're the one, you're the one, you're the one
You're the one
You're the one
You're the one, you're the one, you're the one
Oh-oh fade, oh-oh-oh oh-oh-oh fade

And I want it so bad, you go into the mirror
But I couldn't shake the fear in my heart
And I want to disappear in the evening clear
Swallowed by the dark

You're the one
You're the one
You're the one, you're the one, you're the...
You're the one
You're the one
You're the one, you're the one, you're the one
You're the one
You're the one
You're the one, you're the one, you're the one
