

Wash Away

Dan Black

Lights flicker down in the valley below
Another day fades away, I turn and I head on home
To a dimmer mirror, clothes strewn over the floor
One time I could see it all but now I see nothing at all

Change those burning in my head
Cashpoints flashing me on red
Pacman ghosts around my bed
Oh-woah
Unpaid bills and broken schemes
Out the window all I see
Stretched out forever-ever-ever-ever

Wake me from this dream
Make real the things I've seen
Open my arms, let the river flow, oh
Let the waters around me so
Oh wash away
Oh wash away
Wash away

Nights flicker, what am I doing with my life?
Years disappeared and I'm a xerox of some guy
Nikki, can you hear me? You know where we used to go
It's a bunch of houses and I want nowhere down the road

Change those burning in my head
Cashpoints flashing me on red
Pacman ghosts around my bed
Oh-woah
Unpaid bills and broken schemes
Out the window all I see
Stretched out forever-ever-ever-ever

Wake me from this dream
Make real the things I've seen
Open my arms, let the river flow, oh
Let the waters around me so
Oh wash away
Oh wash away
Wash away

Wake me from this dream
Make real the things I've seen
Open my arms, let the river flow, oh
Let the waters around me so
Oh wash away
Oh wash away
Oh wash away
