

## Get There Soon

Dan Bremnes

24-7 staring at these walls  
I keep wondering if they're gonna fall  
Waking up cold in the middle of the night  
Are we gonna get there?  
Are we gonna get there?

We spent a thousand hours staring at the stars  
Miles and miles, feeling so far  
Every day tryna make it through  
We got a little more road til we get home  
So hold on love don't ever let go  
And if you fall, I'll carry you

We're gonna get there soon  
We're gonna get there soon  
We're gonn  
A get there soon

365 can't help but smile  
All of this pain still worth my while  
If I could turn back time and erase it all  
I wouldn't change a thing so beautiful  
Cause every day brought me back to you  
And there's nothing in this world we can't get through

We're gonna get there soon  
We're gonna get there soon  
We're gonn  
A get there soon

You gotta keep rising up  
You gotta keep climbing up  
You gotta keep rising up  
Oh, we're gonna get there soon  
You gotta keep rising up  
You gotta keep climbing up  
You gotta keep rising up  
We're gonna get there soon  
You gotta keep rising up  
You gotta keep climbing up  
You gotta keep rising up  
We're gonna get there soon
