

Over

Dan Bremnes

Remember that day you said to much
Use the word is a weapon and hurt someone
I know that you regret it, but It's over
Remember that time you went to far
And you cross that line and it broke your heart
You still feel bad about it, but It's over
They call it grace, it's a crazy thing
A deeper love you could ever dream
No matter you've done, It's over

It's over, yesterday is washed away
It's over, so go ahead and turn the page
And leave the past where is at
The cross has covered that
It's over

We all think we are the worst defenders
That all mistakes are to big to measure
It's time to let that weight fall off your shoulders
I promise you, you're truly free
You are not somewhere that His love cannot reach
Doesn't matter who you are
It's over

It's over, yesterday is washed away
It's over, so go ahead and turn the page
And leave the past where is at
The cross has covered that
It's over

Leave it all behind you
Walk a little lighter
It's over, It's over
(2x)

It's over, yesterday is washed away
It's over, so go ahead and turn the page
And leave the past where is at
The cross has covered that
It's over

Leave it all behind you
Walk a little lighter
It's over, It's over
