

Sweet Spot

Dan Bremnes

Even on a Monday you can have a Funday
If that's where your head is
You gotta keep your eyes up
Life can do a mic drop
The most unexpected

Right song, right time all rhymes
If you listen
Good
Friends sunshine alright
Nothing missin'

We're Living in the sweet spot
Isn't that a sweet thought
Heaven never felt so near (so near)
Look at all that we've got
Make me wanna thank God
I think I'm gonna stay right here

Livin' in the sweet spot
La la La la la la
Livin' in the sweet spot
La la La la la la
Livin' in the sweet spot

I don't know how we got here
I got the all clear
But I think I like it
A minute of perfection leads you the next one
I'm not gonna fight it
Flow stay let that song play
Don't break the rhythm
When you get that first taste, know that you're living

Living in the sweet spot
Isn't that a sweet thought
Heaven never felt so near (so near)
Look at all that we've got
Make me wanna thank God
Think I'm gonna stay right here

Livin' in the sweet spot
La la La la la la
Livin' in the sweet spot
La la La la la la
Livin' in the sweet spot

No I'm gonna let it
No I'm gonna let it
No I'm gonna let it go no

Holding on when I get it
And I'm gonna let it
No I'm gonna let it go ooh

We're living in the sweet spot
Isn't that a sweet thought

Heaven never felt so near (so near)
Look at all that we've got
Make me wanna thank God
I think I'm gonna stay right here

Just livin' in the sweet spot
La la La la la la
Livin' in the sweet spot
La la La la la la
Livin' in the sweet spot
La la La la la la
Livin' in the sweet spot
La la La la la la
Livin' in the sweet spot

No I'm gonna let it (La la La la la la)
No I'm gonna let it
No I'm gonna let it go no (La la La la la la)

Livin' in the sweet spot
