

# Thankful

Dan Bremnes

Woke up today  
Got a smile on my face  
Feeling good to be alive  
With a little bit of style  
And a whole lot of grace  
Breathe in, breathe out  
I just wanna slow down  
Cause in the blink of an eye  
This could all be gone  
Don't want to miss right now

It's easy to forget about today  
But I won't let it slip away

I am thankful  
Thankful to be alive  
I am grateful  
To know that you're on my side  
When fear's knocking on my door  
I know I'm gonna be alright  
Cause you are faithful  
And I'm thankful to be alive

Watch the headline news  
Yeah, we all gotta choose  
How we're gonna see the world  
If we open up our eyes  
We'll see the good things too  
Yeah we all got scars  
That only love can mend  
And it's a brand new day  
Every breath is a chance to start again

I am thankful  
Thankful to be alive  
I am grateful  
To know that you're on my side  
When fear's knocking on my door  
I know I'm gonna be alright  
Cause you are faithful  
And I'm thankful to be alive

Yeah you gotta keep your head up  
And don't ever look down  
Cause in the blink of an eye  
This could all be gone  
Don't want to miss right now  
Yeah you gotta keep your head up  
Have a littlebit of faith  
Yeah you gotta keep your head up  
Keep your head up

I am thankful  
Thankful to be alive  
I am grateful  
To know that you're on my side  
When fear's knocking on my door

I know I'm gonna be alright  
Cause you are faithful  
And I'm thankful to be alive

I'm thankful to be alive  
I'm thankful to be alive  
Yeah you gotta keep your head up  
Have a little bit of faith  
Yeah you gotta keep your head up
