

New Leaf

Dan Bull

I have found a way out
I have found a way out
It's a dark and desolate path
It will take everything that I've got
But I have found a way out
I have found a way out

Daniel
Oh Daniel Bull
You are such an awkward boy
Why do you do it
Daniel
Oh Daniel Bull
You might be the death of me
But I love you

I put my life on the line, didn't I?
I pegged it up for prying eyes
It was a fresh CD
a clean sheet leaves me high and dry
but try as I might
I can't find the fight to retire, no
So it's time that I livened up
Took a stride to the light and strut

I got a clean new opportunity
to produce CD two beautifully
Would you believe I'm in a super-human league
I mean, who else can do what I do to beats musically?
As soon as D.A.N. B.U.L.L. spells trouble
then you can leave
Meanwhile please stay glued to your seats
so you can see the ace up my new sleeve

I didn't decide to pick up a biro, no
didn't decide to pick up a microphone
woe betide my open eyes
so I've opened my soul, and lo and behold
I've broken the mould
Try as I might
I can't find the fight to retire, no
So it's time that I livened up
Took the mic and said "hiya chuck"

If I was a peg (which I'm not)
I'd hold you
But I have found a way out
I have found a way out
