

# Steel Rats

Dan Bull

Alright  
Move aside  
We're coming through  
What are you going to do?  
We're roasting coastal city like an outbreak of sudden flu  
Bouncing off the asphalt like a running shoe  
Wreck and ride  
Crush anything mechanised  
Junkbots better recognise:  
Here are some real stats  
We are the Steel Rats  
Wheels squeal like some real rats  
Feel that?  
Revving the handlebars like shredding on damn guitars  
My bike is an instrument and the engine's an amplifier  
Baptised in fire  
You're flat tired as I just blast past I might just smack your behind  
That's 'cause we're defiant misfits  
Trying to find mischief  
Defying critics with rhymes so stylistic  
Nihilistic, riding the five districts  
Skid marks behind the tyres applied lipstick

Are we man or metal?

Oi

Why not both?

Steel Rats, Ride or die  
Nobody toppling us  
I know why  
Steel Rats, Ride or die  
Steel Rats, Ride or die  
Defying gravity 'til we - Find the sky  
Then we hit the sidewalk - Right on time  
Steel Rats  
Because we're - Ride or die  
Steel Rats  
Yeah, we're - Ride or die

It's a kind of funny feeling  
When you're riding on the ceiling  
But I find it so appealing  
That my Y-Fronts are just leaking  
This environment is really something  
I could travel deep in  
Breathing the pollution  
'Til my sinuses are bleeding  
Petrol fumes fuel  
The scolding stink of diesel  
We release enough lead to roof  
A whole fricking cathedral  
Leaping it like Evil Kneival  
If he was still in freefall  
Swooping in and taking your treats

Like we were thieving seagulls  
We're not a role model, we're living at full throttle  
Tyres spinning that could dig up dinosaur fossils  
With rotating razor blades no saying who we'll shank  
This vehicle is basically a two wheeled tank  
Dank memes won't stop us  
No police, no coppers  
It's a Vietnam flashback, when we rode choppers  
In a land of anarchy we're practically the new police  
So you won't catch us delivering your Ubereats

Steel Rats, Ride or die  
Nobody toppling us - I know why  
Steel Rats, Ride or die  
Steel Rats, Ride or die  
Defying gravity 'til we - Find the sky  
Then we hit the sidewalk - Right on time  
Steel Rats  
Because we're - Ride or die  
Steel Rats  
Yeah, we're - Ride or die

Neo knights, so valiant  
Riding a chrome stallion  
Sliding up slow, ramming the side of your old banger  
And big sparks are flying while you're highly flammable  
So if you hide it's understandable  
Violent vandal riding a mechanical animal  
Like a truck was fucking a bucking bronco  
Don't try to tame our game, 'cause you'll give up in one go  
Just bumped off some junkbots  
Squashing them like kumquats  
I think I might have just voided their warranty somewhat

Steel Rats, Ride or die  
Nobody toppling us - I know why  
Steel Rats, Ride or die  
Steel Rats, Ride or die  
Defying gravity 'til we - Find the sky  
Then we hit the sidewalk - Right on time  
Steel Rats  
Because we're - Ride or die  
Steel Rats  
Yeah, we're - Ride or die
