Do You Have To?

Are you sure that you've got to leave? Won't you stay for a while? So I'm safe from the thought that I'm all on my own For thousands of miles, tell me Do you have to go (x2)Do you have to leave me Do you have to, Have to (x6) Since you've been gone I have longed for a voice That's not my own Try as I mind, I'm so sick of the sight Of my shadow in here, tell me Do you have to go (x2) Do you have to leave me Do you have to, Have to (x6) Do you have to go Do you have to leave Do you have to go (x2) Do you have to leave

Do you have to, have to Have to (have to) (x2)

Have to (have to) (x2)

Have to
