

## Educate

Dan Croll

If it's not looking right I don't mind  
You to me is everything the only thing I understand  
Writing lines out of line I don't mind  
Me to you is the only lesson that I wanna have

Educate any way that you like  
Educate any way that you like

I, I wanna be just like you  
I wanna educate with you my mind  
I, I wanna be just like you  
I wanna educate with you my mind

Drifting in and out of my sight  
Paths I should've taken but my mind was just preoccupied  
Rebel Rebel how do you do what you like?  
How'd you be a dropout but still find yourself satisfied?

Educate any way that you like  
Educate any way that you like

I, I wanna be just like you  
I wanna educate with you my mind  
I, I wanna be just like you  
I wanna educate with you my mind

Educate any way that you like  
Educate any way that you like  
Educate any way that you like  
Educate any way that you like

I, I wanna be just like you  
I wanna educate with you my mind  
I, I wanna be just like you  
I wanna educate with you my mind
