

Nobody knows

Dan Croll

Baby come round
Baby come round hey!
Baby come round and tell me about
What nobody knows
What nobody knows

Your holding on to something good
Inside it feels the way or should
You feel you've got nothing to hide
You want to scream it to the world outside

And now you move with the changing tide
And now you walk at a clearer night sky

Baby come round
Baby come round hey!
Baby come round and tell me about
What nobody knows
What nobody knows
What nobody knows

Now don't it feel so good to say
I have a clearer conscience everyday
This weakness that I fear to show
Is a confidence that I want to grow

And now you move with the clearer side
No sign if fear in the callings al night

Baby come round
Baby come round hey!
Baby come round and tell me about
What nobody knows
What nobody knows
What nobody knows

What nobody knows
What nobody knows
What nobody knows
What nobody knows
What nobody knows

Baby come round
Baby come round hey!
Baby come round and tell me about
What nobody knows
What nobody knows
What nobody knows
