

Sunshine

Dan Croll

Passed by the store the other day
Saw a card bright yellow and it said sending 'sunshine your way
,

But it all went south so soon
And now it lays unopen next to you

Right on the steps of Eden
All choked up cause you're leaving
Though I made the choice to stay
I'm with you all the way
All broke up and hurting
Wishing I was there in person
Though I made the choice to stay
I'm with you all the way

We raised a glass the other night
I shared your stories, slurred my words, hope I told them all r
ight
Stumbled home when all was through
The room was spinning with thoughts of you

Right on the steps of Eden
All choked up cause you're leaving
Though I made the choice to stay
I'm with you all the way
All broke up and hurting
Wishing I was there in person
Though I made the choice to stay
I'm with you all the way

Right on the steps of Eden
All choked up cause you're leaving
Though I made the choice to stay
I'm with you all the way
All broke up and hurting
Wishing I was there in person
Though I made the choice to stay
I'm with you all the way
