

# So Many Nights Alone Without You

Dan Hartman

So many nights, took me by surprise  
Lighting up the darkness, with your eyes  
So many night ago, where did it change and when?  
Now I'd do anything to have you back again  
Hmm

When I shine the light, ain't it funny how the darkness stays?  
But that's alright, cause love's got the strangest ways  
I walk across the moon, the dream goes on  
Every time I wake up, I wonder how I've gone

So many nights alone without you  
So many ways of faking it through  
So many dreams that never come true  
So many nights alone without you

So many nights alone without you  
So many ways of faking it through  
So many dreams that never come true  
So many nights alone without you  
Alone without you

I walk no foreign street, no secret avenue  
For something won't remind me of you  
Just a little thing, shadow or a shape  
And there's nothing I can do, there's no way I can escape

So many nights alone without you  
So many ways of faking it through  
So many dreams that never come true  
So many nights alone without you

So many nights alone without you  
So many ways of faking it through  
So many dreams that never come true  
So many nights without you  
Oh, without you

Through December cold and April rain (woo)  
Through the Summer heat and September pain (woo)  
I've got to have you, I need to have you  
I want to have you, back with me again  
(Yeah-yeah-yeah, woo)  
(I need you)

Now I got  
So many nights alone without you  
So many ways of faking through  
So many dreams that never come true  
So many nights alone without you

So many nights alone without you (oh)  
So many ways of faking it through (so many ways)  
So many dreams that never come true (woah-oh-oh)  
So many nights alone in the night  
Yeah, so many nights
