

(Can This Be) Real Love

Dan Hill

Felling shadow over you and me
And sometimes I don't know
This become of us, ooh
I can feel you drifting away
Don't know how to bring him back
And how make who we are

Can this be real love?
Or are we just pretenders
Girl it's now or never
What are we dreaming of

Can this be real love?

Hear you crying
When you think no one can hear you
And just don't understand
Of being we put ourselves through, oh

I wanna hold you
And tell you leave
There still some really emotion
Between you and me

Can this be real love?
Or are we just pretenders
Girl it's now or never
What are we dreaming of

Oh, can this be real love
It should be burning like the stars above
We could be burning like the stars above

In the night sky
She 'll so high
Could be burning like the star, baby
We could be burning

Can this be real love
Or are we just pretenders
Girl its now or never
What are we dreaming of
Oh, can this be real love
Real love, oh... can this be?
