

# Just in Time

Dan Hill

I'm not going to change for you  
I'm not going to compromise  
I've got my life to live  
I've got nothing left to hide

And you laugh at freedom  
You say the price is far too high  
I'll take my chances now  
I just got to say goodbye

Just in time I read your mind  
Just in time and now I finally found the man I wanna be  
Just in time, I saw the signs just in time and I know I feel  
I'm finally running free woah  
I finally found in me the man I wanna be

And all those times woah I tried to tell you how I feel  
Well you turned your back to me  
You had something to conceal

Now that it's over woah  
I got no cross to bear  
I'm moving forward now  
Going to take my chance out there

Just in time I read your mind  
Just in time and now I finally found the man I wanna be woah  
Just in time  
I saw the signs just in time and I know I feel  
I'm finally running free woah  
I finally found in me the man I wanna be

Just in time I read your mind  
Just in time and now I finally found the man I wanna be  
Just in time, I saw the signs just in time and I know I feel  
I'm finally running free

Just in time  
I crossed the line just in time  
The world is gonna be mine  
Just in time (No, no more lies now, no more)  
Say goodbye  
Just in time  
Finally found the courage to be the kind of man I wanna be  
Just in time (I found out)  
I found out  
Just in time
