

A.M. AM

Dan Mangan

Stuck here in a life that repeats
Living in the now and between
Pages from a magazine
Instruction manuals for your dreams

All along
All along it was you
All along

This is where you stop and rewind
This is where our dreams all collide
Streaming through your heart that was mine
Living in a world that was yours through your eyes

All along
All along it was you
All along
It was you all along
It was you all along

Waiting for a life that was allowed
Not my own but yours all alone
Wide awake until you're home
Black on black and roses gold

All along it was you
All along

I was yours all along
I was yours all along

I was yours all along
I was yours all along

So don't go changing
I'm not leaving you

Don't go changing
I'm not leaving you

All along it was you
All along
All along it was you
