Easy

Dan Mangan

Show up unannounced, get me off the floor
Take me somewhere I've never been before

Show me sunrises from the interstate
Throw all my devices in the deepest lake

Take me by surprise
I'm ready to drift if you've got the time

Show me how to be easy
How to be easy

Kill the madness when I'm stuck in it
Give it back when it's appropriate

Shake my branches 'til I fall
I'm somewhere between here and nowhere at all

Show me how to be easy
How to be easy
And make me believe it
That I could be easy

Show me how to be easy
How to be easy
And make me believe it
That I could be easy
