

Bring It On Back

Dan McCafferty

You can fight cause you like to fight
Or you can fight for a cause
Everybody says your going wrong
You say there thinking is false
You're gonna cross that line
Outside of the law

You can take a rocky road
Or the one that looks smooth
You can follow the ways of the clan
Or you can be your own man
But there's a price to pay
And you can pay and pay
Lose all your love one day
Forget how to pray

When the demon is messing with your mind
Stop, you can control your heart in time
Take your love and restart
Take your love and bring it on back

You can live how you want to live
Or you can do as you're told
You can believe what everyone dose
Or you can be bold
You can tell the truth with no fear
Get some followers here

You can put your face on TV
About the party line
Revolution ain't easy
Don't let the people down
But there's a price to pay
And you can pay and pay
Lose all your love one day
Forget how to pray

When the demon is messing with your mind
Stop, you can control your heart in time
Take your love and restart
Take your love and bring it on back...
