

Look At The Song In My Eyes

Dan McCafferty

The sun is shining on me
I can feel the glow
I feel the music in me flow
Got a woman who loves me
Everybody says it's so
Say I'm crazy that I know
What everyone is looking for
I have by my side
Happiness let the sadness slide

No more days like nights
I can see the light
Happiness I found and I want more
Now my futures bright
All those crazy nights
Make me want more and more and more
Don't get better than this
Look at the song in my eyes

As I look around
My life is fine
I know how I will use my time
I got everything I cannot ask for more
They say I'm lucky that I know
What everyone is looking for
I have by my side
Happiness let the sadness slide

Look at the song in my eyes...
