My Baby

Dan McCafferty

Danced like a crocodile
With a Mona Lisa smile
Met her in the sky one day
My heart just flew away
From the shadows into the light
Oh yeah, my baby makes everything right

My baby, my baby, my baby
Oh, she rocks my world
My baby, my baby, my baby
The one and only girl

Never let somebody down
She don't keep a fool around
She believes there's always good
Expects it back it's understood

Life should be love and fun
She can put my blues on the run

My baby, my baby, my baby
Oh, she rocks my world
My baby, my baby, my baby
The one and only girl

I'm thanking someone every day
That my baby came my way

My baby, my baby, my baby
Oh, she rocks my world
My baby, my baby, my baby
The one and only girl

My baby, my baby, my baby
Oh, she rocks my world
