

Nightingale

Dan McCafferty

Sings a sad song for lonely women
Sings about women to lonely men
Sings a peace song to a soldier
Sings about loneliness to a friend

She's a song, song singer
Let her music touch your heart
She's a song singer from her heart

Sings a melody to haunt you
And some words to make you cry
If you're sad she'll make you happy
When you're down she'll take you high

She's a song, song singer
Let her music touch your heart
She's a song singer from her heart

She's a song, song singer
Let her music touch your heart
She's a song singer from her heart

She's a song, song singer
Let her music touch your heart
She's a song singer from her heart
