Nobody's Home

Dan McCafferty

Hold me, help me again
You just told me you loved me
And that changes everything
In my world

Tell me, tell me again it's a new day
Everything's gonna be our way
It won't go wrong

I was lost, there was nobody home
I didn't care what was happening to me
You walked in, I was all in a spin
Feelings I never knew I had in my soul

Hold me, I saw you breaking down
Found you stuck in the lost and found
Baby, you won my heart
Together we can reach for the sky
Honey, we're gonna win the prize
Then we'll go flying

I was lost, there was nobody home
I didn't care what was happening to me
You walked in, I was all in a spin
Feelings I never knew I had in my soul

I was lost, there was nobody home
I didn't care what was happening to me
You walked in, I was all in a spin
Feelings I never knew I had in my soul

Hold me, help me again
You just told me you loved me
And that changes everything
In my world
