

You And Me

Dan McCafferty

It seems so far away
All of our yesterday's
Gone are those crazy years
None of yours ups and fears
We lived our lives so fast
Wondering if it could last
Those were the days before
There all gone and you know

You and me
Had a crazy life
You and me
So much pain and strife
Future days we'll walk a different line
Sunny days all the time

You and me
The dreams we shared
You and me
How we always cared
Coming days gonna have to fight
But that's alright, that's alright

Mornings and nights the same
My wishes still remain
But I still want to live
My blood burns the world turns
Our dreams will carry on
I stay here all alone
Feeling my heart and soul
Our lives will soar and try for more

You and me
Had a crazy life
You and me
So much pain and strife
Future days we'll walk a different line
Sunny days all the time

You and me
The dreams we shared
You and me
How we always cared
Coming days gonna have to fight
But that's alright, that's alright

Could never leave you there
Got to keep it together for now

You and me
Had a crazy life
You and me
So much pain and strife
Future days we'll walk a different line
Sunny days all the time

Mornings and nights the same

My wishes still remain

Sunny days all the time
